General Manager

Dear Golfers,

2015 has passing by, and we are heading 2016, still lot of things to be improved, one of the thing is to make our starting time smooth as reserved. We believe all of you know exactly about this rules, we just try to remind and refresh about this procedure, because we need help or your cooperation to make this run as well as we all expect.

Please make your reservation tee time and course for your playing day, and complete your pairing names to our reservation staff, especially during weekend and public holiday. After you make registration on your playing day, please let the starter know about your pairing name or bag tag 15 minutes before your scheduled tee time, our starter staff will call you at least 10 minutes before your tee time and to be ready at your reserved teeing ground.

Golfers arriving with less than three players may lose their starting time, unless they can place with additional players. If a group would like to tee off within a ½ hour of the first scheduled tee time(early bird) they may do so but when they reach at other nine tee they must give a way to any other golfers who have their scheduled tee time at the tee. If an early bird group only 2 players when you reach other nine tee, you will be asked to wait for additional player or you will lose your right on the course. As we mentioned above this procedures cannot run smoothly without your cooperation.

Policy made to help us out from the difficulties, "HAPPY NEW YEAR AND LET US FACING THIS YEAR WITH ALL POSITIVE THINGS".

Second Blood Donation Program within year 2015 was held on Monday October 5, 2015.

Usually on Monday, many Caddies and shift Employees are off because they are so tired and busy during weekend, thanks God that day October 5 2015, registered people to donate were 78, however 22 people were refused by Indonesian Red Cross to donate due to some reasons such as: high blood pressure, taking medicine the day before, problem of Hemoglobin etc.

Anyway percentage wise for successful rate was 72 %, still considered good. And December 29, 2015 we have completed our third and final program of Blood Donation in year 2015, registered people in the last program were 72 , while 56 people were allowed by Indonesian Red Cross to donate it means successful rate was 75%, the reason for those who could not donate is almost the same as the program of October.

Last year article in Emerald Magazine, it was informed the benefits of Donating Blood, for example :

- Preserves Cardiovascular Health ,says Harvard Medical School Family Health
- Reduce the risk of Cancer, says Journal of The National Cancer Institute
- Burns Calories, says, the University of Californian, San Diego

Adding to the above information, in this article we would like to have additional information from "Disehat Com", regarding " Benefits of Routine Blood Donation for Health" :
